Even natural therapies have the potential to cause adverse reactions. To help reduce this possibility, it is very important that you inform your naturopathic doctor of; any disease process that you are suffering from, if you are on any medication or over the counter drugs, if you are pregnant, suspect you are pregnant, actively attempting to become pregnant or you are breast-feeding.

Despite intensive training and precautionary measures, there is always the possibility of health risks from natural therapies. These include but are not limited to:

Aggravation of pre-existing symptoms or minor to severe allergic reactions to supplements, herbs or homeopathics.

Pain, bruising, injury, fainting or tissue damage from bodywork, acupuncture, cupping, or B12 injections; Fainting or puncturing of an organ with acupuncture needles, accidental burning of the skin from the use of moxa or cupping; Muscle strains and sprains, disc injuries from spinal manipulation. The potential for stroke is a concern in neck manipulation, but tests will be done to screen for this possibility. Clinical research has shown that stroke-like occurrences are rare – approximately 1 in 1.5 million manipulations.

With this knowledge, I voluntarily consent to diagnostic and therapeutic procedures mentioned above, except for: (please list exceptions below):
